

## **Product Data Sheet**

## hsa-miR-4647 miRNA Inhibitor

| Catalog #      | Source            | Reactivity               | Applications  |  |  |  |
|----------------|-------------------|--------------------------|---|--|--|--|
| CIH1443        | Synthetic         | Н                        |   |  |  |  |
| Description    | Syr               | ithetic miRNA inhibito   | rs are used to inhibit hsa-miR-4647 by transfaction.      |  |  |  |
| Specificity    | mil               | RNA Inhibitors are che   | mically synthesized, complementary, antisense             |  |  |  |
|                | sin               | gle-stranded oligonucl   | eotides to their target, endogenous mature miRNA. It      |  |  |  |
|                | effe              | ectively prevents the t  | arget miRNA to bind to normal cellular binding sites.     |  |  |  |
|                | Tra               | nsfection of inhibitors  | followed by downstream gene expression analysis or        |  |  |  |
|                | phe               | enotypic analysis, is pe | rformed to elucidate the targets and roles of particular  |  |  |  |
|                | mil               | RNAs.                    |   |  |  |  |
| Form           | Lyo               | philized powder          |   |  |  |  |
| Gene Symbol    | hsa               | hsa-miR-4647             |   |  |  |  |
| Accession No.  | . MI              | MIMAT0019709             |   |  |  |  |
| Components     | Thi               | s synthetic miRNA is b   | ased on the mature miRNA sequence. It does not contain    |  |  |  |
|                | the               | full precursor miRNA     | stem-loop.  |  |  |  |
| Directions for | <b>Use</b> We     | recommend re-suspe       | nding the lyophilized synthetic miRNA using DNase and     |  |  |  |
|                | RN                | ase-free ddH2O. To ma    | ake a 100 uM stock, dissolve the lyophilized powder using |  |  |  |
|                | 100               | ) ul of ddH2O.           |   |  |  |  |
| Storage/Stabi  | i <b>lity</b> Shi | pped at 4 °C. Store at · | 20 °C for one year. Avoid freeze-thaw cycles after        |  |  |  |
|                | rec               | onstitution.             |   |  |  |  |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
