

**UNC5A Blocking Peptide**

| Catalog #                 | Source                                                                                                                                                                            | Reactivity | Applications |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CBP3734                   | Synthetic                                                                                                                                                                         | H, M, R    | BL           |
| <b>Description</b>        | The peptide is used to block Anti-UNC5A Antibody (#CPA3734) reactivity.                                                                                                           |            |              |
| <b>Form</b>               | Lyophilized powder                                                                                                                                                                |            |              |
| <b>Gene Symbol</b>        | UNC5A                                                                                                                                                                             |            |              |
| <b>Alternative Names</b>  | KIAA1976; UNC5H1; Netrin receptor UNC5A; Protein unc-5 homolog 1; Protein unc-5 homolog A                                                                                         |            |              |
| <b>Entrez Gene</b>        | 90249 (Human); 107448 (Mouse); 60629 (Rat)                                                                                                                                        |            |              |
| <b>SwissProt</b>          | Q6ZN44 (Human); Q8K1S4 (Mouse); O08721 (Rat)                                                                                                                                      |            |              |
| <b>Purity</b>             | >85%                                                                                                                                                                              |            |              |
| <b>Quality Control</b>    | The quality of the peptide was evaluated by reversed-phase HPLC and by mass spectrometry.                                                                                         |            |              |
| <b>Directions for Use</b> | Blocking Peptide to the diluted primary antibody in a molar ratio of 10:1 (peptide to antibody) and incubate the mixture at 4°C for overnight or at room temperature for 2 hours. |            |              |
| <b>Storage/Stability</b>  | Shipped at 4°C. Store at -20°C for one year.                                                                                                                                      |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, CHIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
