## hsa-miR-4459 miRNA Mimic

| Catalog #             | Source      | Reactivity   | Applications  |  |  |
|-----------------------|-------------|--|---|--|--|
| CMH1273               | Synthetic   | Н  |   |  |  |
| Description           | Synthe      | etic miRNA mimics a  | re used to overexpress hsa-miR-4459 by transfaction.      |  |  |
| Specificity           | miRN        | miRNA Mimics are chemically modified, double-stranded miRNA-like RNA which are |   |  |  |
|                       | desigr      | ned to copy the func   | tionality of mature endogenous miRNA upon transfection.   |  |  |
|                       | At the      | 5'-end, it is synthes  | ized with a partially complementary motif to 3'UTR end of |  |  |
|                       | the ta      | rget gene, which all   | ows the miRNA mimic to specifically bind to the target.   |  |  |
|                       | Transf      | ection of mimics fol   | lowed by downstream gene expression analysis or           |  |  |
|                       | pheno       | otypic analysis, is pe   | rformed to elucidate the targets and roles of particular  |  |  |
|                       | miRN        | As.  |   |  |  |
| Form                  | Lyoph       | ilized powder  |   |  |  |
| Gene Symbol           | hsa-m       | iR-4459  |   |  |  |
| Accession No.         | . MIMA      | T0018981   |   |  |  |
| Components            | This sy     | ynthetic miRNA is ba   | ased on the mature miRNA sequence. It does not contain    |  |  |
|                       | the fu      | Il precursor miRNA   | stem-loop.  |  |  |
| <b>Directions for</b> | Use We re   | commend re-suspe   | nding the lyophilized synthetic miRNA using DNase and     |  |  |
|                       | RNase       | e-free ddH2O. To ma  | ke a 100 uM stock, dissolve the lyophilized powder using  |  |  |
|                       | 50 ul o     | of ddH2O.  |   |  |  |
| Storage/Stabi         | lity Shippe | ed at 4 °C. Store at -   | 20 °C for one year. Avoid freeze-thaw cycles after        |  |  |
|                       | recon       | stitution.   |   |  |  |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
