

Product Data Sheet

hsa-miR-5194 miRNA Agomir

CMJ1776 Synthetic H Description Synthetic miRNA Agomir is used to regulate the expression of target hsa-miR-5194 mRNA. Specificity Agomir is chemically-modified double-strand miRNA mimics which can mimic mature endogenous miRNAs after transfection into cells. They can up-regulate the endogenous miRNA activity by utilizing the natural miRNA machinery. Our miRNA agomir is designed to mimic mature miRNAs, and chemically modified to increase their stability and activity. Form Lyophilized powder Gene Symbol hsa-miR-5194 Accession No. MIMAT0021125 Components This synthetic miRNA is based on the mature miRNA sequence. Product Data Sheet

and store at \leq -20°C. miRNA agomir is stable (for 6 months under the specified storage condition). For best results, use in 3 months and limit freeze-thaw events for each tube no more than five times.

Storage/Stability Shipped at 4 °C. Store at -20 °C for one year. Avoid freeze-thaw cycles after reconstitution.
