## rno-miR-3547 miRNA Agomir

CMS0570SyntheticRDescriptionSynthetic miRNA Agomir is used to regulate the expression of target rno-miR-3547 mRNA.SpecificityAgomir is chemically-modified double-strand miRNA mimics which can mimic mature endogenous miRNAs after transfection into cells. They can up-regulate the endogenous miRNA activity by utilizing the natural miRNA machinery. Our miRNA agomir is designed to mimic mature miRNAs, and chemically modified to increase their stability and activity.FormLyophilized powderGene Symbolrno-miR-3547Accession No.MIMAT0017802	Catalog #	Source	Reactivity	Applications

## **Product Data Sheet**

and store at  $\leq$  -20°C. miRNA agomir is stable (for 6 months under the specified storage condition). For best results, use in 3 months and limit freeze-thaw events for each tube no more than five times.

**Storage/Stability** Shipped at 4 °C. Store at -20 °C for one year. Avoid freeze-thaw cycles after reconstitution.
